8' x 36" Level Rail Kit	\$ 92.99	TPL636XL
6' x 36" Level Rail Kit	\$ 69.99	TPL836XL

## Vinyl Rail New in Stock at Pickett's

NEW

Titan Pro Rail<sup>®</sup> was created with the installer in mind. A Titan railing section assembles in minutes and is ideal for residential and commercial applications. Metal to metal connections add to the sound engineering that enables easy and safe installations. Titan is manufactured using the highest quality materials to meet your performance and building requirements.

Titan's pre-assembled, galvanized steel posts eliminate the time consuming task of installing brackets on the job. We have already done your work for you. Corner, end, and mid posts are supplied with heavy duty cast aluminum brackets attached to vinyl sleeved structural posts. A blank post with separate bracket kits is offered for stair and custom applications. Flexible vinyl bracket covers are supplied with the posts and bracket kits, and can be snapped on when the installation is complete.

## NUDURA<sup>®</sup>

### Insulated Concrete Forms Training

On Thursday, May 14 from 8 a.m. to 5 p.m., Nudura will be conducting a Basic Installation course at the Holiday Inn, Route 23 Southside in Oneonta.

This is required training for certification to become an installer of the Nudura system. If you are already ARXX (or other) certified, it is not necessary to be re-certified, but it may be helpful to attend and become familiar with Nudura.

The cost of the course is \$150, payable by credit card only to Nudura. This price includes all course materials. Coffee and lunch are also provided.

To register online, email [training@nudura.com](mailto:training@nudura.com) or contact Pickett Contractor Sales.

# RESISTO

NEW

## Waterproof Coating and Resistoflash Kit now in Stock

Resisto Flash is a single component asphalt/polyurethane coating. It is ready to use and does not require primer for most surfaces, including asphalt shingles, granular elastomer membranes, wood, concrete, metal, etc. Use it for a complete waterproofing on parapets or upstands in new construction or renovation work.

Resistoflash Kit contains all the necessary material for a complete waterproofing on parapets or upstands in new construction or renovation work:

- Resistoflash Coating - 31 oz
- Reinforcement - 6 in x 25 ft
- a brush and a pair of gloves are included in the kit.

Ready, Quick and Easy to Use  
Perfect to waterproof joints between two supports

**RFKIT - \$44.99 – Resistoflash Kit**

Resistoflash is a waterproofing single-component polyurethane/bitumen resin dedicated to flameless roof waterproofing in new constructions or renovations. Resistoflash is ready to use and is applied directly on traditional bituminous waterproofing, without any primer.

**Resistoflash Coating**  
**RFCTG1G - \$57.99 – Gallon**  
**RFCTG1Q - \$15.99 – Quart**

**Stockholme Path Light**

24" Tall x 7.5" Diameter  
Cast Brass with Bronze Finish

**\$75.00**

Also stocking transformers, low voltage wire, connectors, photo control assembly

# LED Lighting

The light-emitting diode (LED) is one of today's most energy-efficient and rapidly-developing lighting technologies. Quality LED light bulbs last longer, are more durable, and offer comparable or better light quality than other types of lighting.

LED is a highly energy efficient lighting technology, and has the potential to fundamentally change the future of lighting in the United States. Residential LEDs -- especially ENERGY STAR rated products -- use at least 75% less energy, and last 25 times longer, than incandescent lighting.

Widespread use of LED lighting has the greatest potential impact on energy savings in the United States. By 2027, widespread use of LEDs could save about 348 TWh (compared to no LED use) of electricity: This is the equivalent annual electrical output of 44 large electric power plants (1000 megawatts each), and a total savings of more than \$30 billion at today's electricity prices.

- **Light Source:** LEDs are the size of a fleck of pepper, and a mix of red, green, and blue LEDs is typically used to make white light.
- **Direction:** LEDs emit light in a specific direction, reducing the need for reflectors and diffusers that can trap light. This feature makes LEDs more efficient for many uses such as recessed downlights and task lighting. With other types of lighting, the light must be reflected to the desired direction and more than half of the light may never leave the fixture.
- **Heat:** LEDs emit very little heat. In comparison, incandescent bulbs release 90% of their energy as heat and CFLs release about 80% of their energy as heat.

As Pickett's phases out the current inventory of compact fluorescent lamps, more LED's will be made available.

 <p>General purpose, medium screw base. For indoor use. Replacement for traditional incandescent bulbs.</p> <p>40 Watt 6552178 \$9.99 / 2 pack 60 Watt 6552236 \$10.99 / 2 pack</p>	 <p>Spin light. Can be wall or ceiling mounted. Round, 4,000K, white. UV, IR and mercury free. UL/cUL Listed for damp locations.</p> <p>5345889 \$28.99</p>	 <p>LED 7" Versi Light Fixture Fixture operates at 120 volt, 60 Hz and ensures no flickering and quiet operation.</p> <p>7112475 \$39.99</p>
